

### **AMENDMENTS TO THE SPECIFICATION**

Please replace the second paragraph after the section titled "Detailed Description of the Preferred Embodiments" with the following paragraph:

The turbine housing 3 is provided with an exhaust gas inlet 9 and an exhaust gas outlet 10. The inlet 9 directs incoming exhaust gas to an annular inlet chamber which surrounds the turbine wheel 4. The exhaust gas flows through the turbine and into the outlet 10 via a circular outlet opening which is coaxial with the turbine wheel 4 and directs exhaust gas to an outlet pipe 20 50.
